

Download the D6 Communicator - please follow these 4 steps.

EXISTING USERS will need to delete the current program and install the new authenticated version (STEP 1)

NEW USERS need to follow from STEP 2 onwards.

STEP 1 DELETE current D6 communicator by going into your Control Panel and search for 'Programs and Features'.

Find CMASA D6 technology and hit 'Uninstall'

STEP 2 Download new D6 version by clicking on this link

<http://d6technology.com/downloads.php>

On the drop-down menu – select CMASA and install for either MAC/Windows, whichever is applicable to the operating system that you are using.

Click 'Run' once download is complete, accept the terms of agreement and click 'next' and then 'Install' and then 'Finish'

STEP 3 New D6 pop-up will appear on screen – enter your email address that you have supplied to CMASA for membership and click 'request a password'

STEP 4 Next pop-up is 'request a password' – enter your email address and submit
Password is then emailed to you to use to gain access. Click on D6 CMASA icon, put in the new password that has been emailed to you – it is case sensitive.

Follow the registration menu by providing name, surname, cell etc. Click 'ALL' content to receive and then click DONE.

Download is now complete.
